## REPORT OF BOARD OF EDUCATION.

---

*To the Members of the Lyndeborough School District :*

The school board respectfully submits the following report for your consideration for the year ending February 15, 1914.

At the annual meeting of the school district Fred B. Richards was elected moderator, Charles H. Tarbell, clerk and treasurer, Walter S. Tarbell, auditor, and May P. Emery, a member of the board of education for the term of three years.

The school board organized with Ella R. Holt, chairman; Bertha P. Woodward, secretary and May P. Emery, truant officer.

The money raised for repairs has been laid out where it seemed most needed. The South school has been newly papered, painted and whitened, two windows added in back part of room, cement vaults built and general conditions in the outside closets improved.

The old floor at Johnson Corner containing cracks in which one could lay their hands has been removed and disposed of and replaced by a matched floor. Minor repairs have been made at the other districts.

Many text-books so worn and out of date as to be obsolete have been exchanged with an additional discount for up-to-date texts in geography (Tarr and McMurry's) and physiology (Gulick series). Reading is the foundation for all other subjects and the best progress is made in reading a large amount of comparatively easy material instead of the antiquated method of "going through" a book until its contents were learned by heart. With this end in view some supplementary reading has been bought for all the

grades, but much more is needed; also language books for fifth and sixth grades.

We believe the idea that many rural schools are adopting in owning a school library with one book of a kind for home reading and reference work is an excellent one, and heartily endorse such an act by any of our own schools.

"Busy Work" has been purchased in the form of number devices, word and sentence builders, phonogram and quick perception cards, Thompson drill sheets in arithmetic, language, etc., and dissected maps of the United States cut on state boundaries.

Much interest has been taken in nature study; flowers and birds, their names, habits, etc.; dumb animals and their treatment and one of the features of some of the United States history classes has been their interest in current events.

Each school has been represented at some teachers' institute. Many helpful suggestions were received that were successfully put in practice later.

The Center, South and Perham Corner schools have done creditable work in drawing. The Center school is to be commended for their excellent work in composition, oral description, story telling and dramatizing. One composition written by a pupil in the South school was selected by a New Hampshire Superintendent and read at one of the institutes. Johnson Corner school is deserving of praise for their memorizing and concert rendering of standard selections. The poems chosen by Miss Curtis have been excellent and well adapted to her grades. The Southwest school has also done good work along this line. The pupils in this school have also done some artistic paper cutting. The Perham Corner school was doing excellent work under Miss Doherty's direction and it was most unfortunate for all concerned that she was unable to continue her duties. Miss Doherty's and Miss Woodward's Indian, Puritan and Eskimo villages were both ornamental and instructive.

Each school now owns a sanitary water cooler and each child is supposed to have his own drinking cup.

Our teachers for the most part have given excellent satisfaction. We are unfortunate in not having adequate funds at our disposal to compete with other towns in the payment of teachers, thus retaining the best.

Music has been taught in four schools and satisfactory progress made. Some of our teachers have made excellent use of the Wilton and town libraries in securing books for outside reference and spare time for reading.

In one school the pupils have carried two cents each week towards the purchase of good pictures for their schoolroom. Each school might do this to good advantage.

We would suggest that a sum of money be raised at the coming school meeting with which to paint the outside of the South and North school buildings, the interior of Johnson Corner, to build better toilet facilities at Perham Corner and to make many needed repairs at the other schools.

The town of Wilton has offered us a place in their district this coming fall and we strongly advise Lyndeborough to enter a supervisory district for, only under a competent superintendent, can our schools reach the highest standard. Each town pays its share towards the superintendent's salary according to the number of teachers employed. The state meets the town's appropriation with an equal sum.

We take this opportunity of expressing our appreciation to all those who have taken any pains to show us consideration and good will. The kindest criticisms have come from those who have acquainted themselves with their teachers and the work their school tried to accomplish.

We feel especially grateful to Superintendent Frank M. Rich for all his helpful suggestions and courtesy to us and to our teachers.

To Mrs. Belle Barrow we extend our thanks for books given to the South and Johnson Corner schools.

We also wish to thank all those who contributed so generously toward the Johnson Corner school fund with which the windows were lowered and two new ones added to back of room.

Following is a list of those who contributed :
